

Create a Smart Board Lesson

Due: April 30, 2012

Assignment:

Using SMART Board software, create an Ten Slide Lesson that incorporates ten facets of lesson building with this software. Make the lesson area on your level and discipline. The first slide can be an attractive introduction slide that uses a combination of text and objects.

These facets can include – but not be limited to:

- Infinite Cloner
- Lock an Object in Place
- Attach Sound to an Object
- Add Interactivity using Shapes – or the Eraser
- Using the Reveal Screen
- Magnifying Glass Trick
- Matching With Grouped Shapes
- Vortex
- Pull Tab
- Multiple Choice
- Balloon Pop
- Embedding a Video
- Linking to pre-made IWB Lessons
- Smart Recorder

Grading:

60 Points – All Components with Creativity and Attention to Detail

30 Points – Participation in Smart Board Class Activities

10 Points – On Time!
