

## **Create Two Projects Using a Web 2.0 Applications:**

**Due: May 7, 2012**

Using Animoto; Glogster; VoiceThread; UltraNormal; Prezi Voki, National Video Archives or another Web 2.0 application as discussed or approved by the instructor –

Create two different original projects.

- \*The projects must show original content and thought utilizing as many features of the product as is practical.
- \* This can be a demonstration of how the 2.0 tool could be used in the classroom setting/a project used in a class at Grace University/or an application that could have professional use for a portfolio
- \*You may choose to incorporate these projects into your website/blog
- \*Present completed projects to your students discussing your project and the use of the 2.0 product you chose
- \*Be Creative!

Completeness of Projects	30
Creativity/Design	40
Effort	20
Presentations to Class	10

### **Glogster –**

Create a poster using Glogster.

<http://edu.glogster.com/>

Sign Up for a Free Education Trial Account! Create a poster that incorporates text, sound, video, and links to sites of interest. Include at least six different elements.

### **Voice Thread –**

Create an account and then create a 2 minute narration project using Voice Thread. Upload images to support and enhance your narration.

<http://www.voicethread.com>

### **Animoto –**

Create a video using the power Web 2.0 tool – Animoto. The video must be at least two minutes long and incorporate visual elements, music, and transitions within a theme. To use Animoto, sign-in using this promotional code:

<http://www.animoto.com>

a4eweavbfcc58

### **Voki –**

Create your own personal avatar. Give it pizzazz and personality! Include a 20 – 30 second audio recording. Accounts are free – so if you want to save your work, creating your own account is a good idea.

<http://www.voki.com>

### **National Digital Archives**

<http://www.digitalvaults.org>

Create a poster *and* a movie that highlights the capabilities of this site!

### **Xtra Normal –**

If you are CREATIVE and want a Web 2.0 challenge, Extra Normal is for you. This product gives you the opportunity to create an original animated movie. Very fun!

<http://www.xtranormal.com>

### **Prezi**

Take a ho-hum Power Point presentation and turn it into a Prezi! This tool allows for a spiffy interaction between the user and interface making you look like a tech pro.
