

ED 316 – Spring 2012

Wiki Project – 100 Points

Finish Date: May 7, 2012

1. Our class Wiki is located at: <http://graceutech2012.wikispaces.com/>
2. E-mail or give me your preferred e-mail address so I can add you on as a user to the account.
(Planned for first class meeting on January 23, 2012.)
3. Our username is: GraceUTech2012
Our password is: ed3162012
4. Once you are signed into the account, you can either choose to:

Find an internet site in the one of the Overview Websites that are located on our class wiki, or you can re-use sites shared by Grace students last year at

<http://graceutech2011.wikispaces.com>

Add a descriptive annotation of three or four sentences about the site.

Or

Share an educational site that you find that has value to teachers/students. The entry should be or four sentences.

Or

Share a website that is relevant to enhancing your Christian maturity.

And

Make ten entries throughout the semester.

5. Plan to share/demonstrate your sites four times during the course of the semester during planned class sharing sessions.
6. Yes! You can use a link to your Blog for one of the 10 entries. How easy is that to get started?

Sample Entry:

[Wordle](#)

Allows the user to create 'word clouds' from text entered into this easy online generator. The more times a word is used, the larger it appears in the generated text. Text generated can either be housed on the Wordle website or can be downloaded in a graphic format to be used independently in presentations. Users have a choice between a variety of fonts, colors, and styles. Here's a example using [Psalm 23](#)

Evaluation:

Ten Thoughtful Educationally Appropriate Entries, Correctly Linked	50
Full Annotations with Correct Grammar, Spelling, Punctuation	30
Class Sharing Sessions (3)	20
